TorFlex™

Transseptal Guiding Sheath and Dilator

TorFlex™

TRANSSEPTAL GUIDING SHEATH AND DILATOR

Specifically designed to be used with the Toronto Transseptal Catheter for creating a transseptal puncture.

- Braided sheath construction provides superior torque control yet retains flexibility.
- Enhanced radiopaque tip maximizes visualization of sheath during manipulation.
- Tapered distal profile facilitates a smooth transition from dilator to sheath.
- Smooth inner lumen enhances ease of introduction and delivery of devices through sheath.
